International Student Support

Event programme and advisory services
for international students

Studying at a university in another country can be both an exciting and a challenging experience.

To help you settle in quickly and make the most of your time in Braunschweig, we offer an extensive support programme for international students. Our programme offers you many opportunities for personal development. We will assist you at the start

of your studies and put you in contact with other students. We will organise day trips to explore cities and companies in the region with you. And you can also rely on our various advisory and information services to help with any questions or concerns you may have.

At a glance: offers and events

You can find all events, advisory services and general information on our website:

START

Starting your studies is exciting and a big step in your life. To make it a success, we are happy to support you even before the start of your first semester:

- ▶ At the International House you will get **all the answers and find many personal advisory services** covering everything from the application process to the start of your studies.
- ▶ As soon as you have been admitted, you can apply for the **Erasmus Student Network Buddy Programme**. Your Buddy will support you during your first days in Braunschweig and will also answer any questions you may have before your arrival.
- ▶ The **Welcome Week for international students** takes place the week before lectures start. This is where you get to know the University and other international students and find out everything you need to know to start your studies.

CONNECT

Things are much easier when you study together. We support you in getting to know local and international students and in making contacts:

- ▶ The **Lunch Breaks and Coffee Breaks** are a great opportunity to meet fellow students and to strike up a conversation over lunch in the Mensa (canteen) or in a café nearby.
- ▶ The **Erasmus Student Network** organises many exciting events every semester. There is something for everyone— from city tours to bowling evenings.
- ▶ The **SCOUT programme** pairs you up with local students who support you in living and studying in Germany.
- ▶ Student initiatives such as **Enactus** or **AIESEC** offer you the opportunity to get involved in different ways and meet other people while studying.

DISCOVER

Your studies don't just take place in the lecture hall. We show you cities, companies and research institutions in the region and beyond:

- ▶ **Excursions to local and regional companies** are a great way to establish business contacts and build your own network while you are still studying.
- ▶ You will also get to know **many institutes of TU Braunschweig and important research institutions in the region**.
- ▶ On day trips you can experience what the **cities in the Braunschweig region and across Lower Saxony** have to offer.
- ▶ In addition, you can take part in **excursions to major German cities** and explore places such as Berlin or Hamburg. History and heritage can be found wherever you go.

PRACTISE

We want you to be a successful student. To help you accomplish your goals, we offer a wide range of language courses and workshops:

- ▶ There are many **language courses** to choose from if you want to **improve your German**. Or you can take part in the **"Studying without Language Barriers" (S.o.S.) programme**, where you can learn together with German and international students.
- ▶ In our **workshop programme**, you will have access to many exciting courses. You can, for example, try out important **digital tools** for studying at TU Braunschweig or **learn how to cope better with stress** during your studies.
- ▶ Students from Faculties 3 and 4 can participate in the **inTU programme**, where they receive a lot of support in organising their studies.

We are here for you!

Thanks to our comprehensive range of advisory and information services for international students, we can either help you immediately or know who is the right person to contact at TU Braunschweig:
