Workshop

# The Performative MakerSpace – Using Green Screens in the EFL Classroom

Tajan Abdulla, M.Ed.

Saturday, 01.06.2024, 10:00 - 15:00 o'clock

BI 80.303/304 (MakerSpace)

Makerspaces are dedicated areas within schools where students can engage in hands-on, creative, and collaborative activities related to making, tinkering, and inventing.

In this workshop, we will work with green screens, a tool that embraces and supports the diversity of all students and allows for motivational, creative, and multisensory language experiences.

In order to support the essential learning steps, we will explore practically every phase of project development, such as scriptwriting, setting up the studio, creating backgrounds, filming, editing and the final presentation.

Furthermore, we will discuss and evaluate our experiences and insights for future implementations in schools.

Ansprechpartner:  
Ron Freytag, M.Ed.  
ziel-tubs@tu-braunschweig.de  
Bienroder Weg 80, Raum 204
